

## Solution to Study 0079

### CONCLUSION

Have you been living the life of the old man/sinful nature which is dependent on the senses, or, the life of the new man/crucified life which is based on faith? In reality, only the new man can get married according to God's purpose, and stay married as God intended. The person who lives the crucified life/new life is the one who can truly live out his or her role in marriage. But when a person still has the old sinful nature, he or she will continue to experience frustrations in marriage! So, let us all go to the cross and be crucified with Christ. We will be unable to move forward in our marriages as God intended, until we do just that! Please note that the crucified life is also applicable in every area of your life.
